

Thai Journal of Pharmacology

Vol. 24, Supplement 1, 2002

CONTENTS

S6	Preface	
S21	PL1/1	เภสัชวิทยาของระบบการทรงตัว (Pharmacology of the vestibular system)
S38	PL1/2	แนวทางการรักษาใหม่ในผู้ป่วยที่มีอาการเวียนศีรษะ (New therapeutic option in the treatment of vertigo dizziness)
S48	PL2	การรักษาโรคเบาหวานด้วยวิธียับยั้งการสร้างเส้นเลือด
S71	PL3	Antidiabetic drugs : current therapy and future opportunity
S78	SY1/1	New pharmacotherapies in ischemic heart disease:
S81	SY1/2	การรักษาโรคหลอดเลือดหัวใจตีบ
S87	SY2/1	Exploring the new horizons beyond monoamine hypothesis in the management of depressive disorders
S91	SY2/2	Exploring the new horizons beyond MA-Hypothesis in the management of depressive disorders: Is there any clinical relevance?
S99	SY2/3	Overview of monoamine hypothesis of depression
S100	SY3/1	Update in antimicrobial agents new coming antibacterials in Thailand
S110	SY3/2	การใช้ยาปฏิชีวนะอย่างคุ้มค่าโดยหลักเภสัชเศรษฐศาสตร์ (Pharmacoeconomic consideration of antibiotic therapy)
S119	SY3/3	New drug development in antimicrobial agents
S121	O1	Paraxanthine/cafeine ratio: as an index for CYP1A2 activity in polycyclic aromatic hydrocarbons exposed subjects

- S122 O2 Comparative *in-vitro* study of killing activities and morphological changes of cefpirome, cefepime, imipenem and meropenem alone and in combination against gram negative bacteria
- S123 O3 Inhibition of platelet aggregation and reduction of GpIIb/IIIa receptor by progesterone
- S124 O4 Effects of nitric oxide synthase inhibitor, L-NAME on the elevated plus maze behavior in isolation stress rats
- S125 O5 The effects of anticoagulants on cholangiocarcinoma cell induced platelet aggregation: a comparison between sodium citrate and heparin
- S126 P1 Effects of synthetic CU 18-08, CU 18-10 and CU 18-11 compounds on Ca^{2+} mobilization into smooth muscle of isolated rat aorta
- S127 P2 Prostaglandin E_2 inhibit cyclooxygenase-2 induction in LPS-treated endothelial cells through cAMP
- S128 P3 Antidiabetic effect of *Combretum decandrum* in streptozocin induced diabetic rats
- S129 P4 Bioequivalence test of the generic gliclazide (DIANID[®]) and the innovator (DIAMICRON[®]) in healthy Thai male volunteers
- S130 P5 Inhibition of reactive oxygen species production in rat peritoneal macrophages by ethanolic extract of *Morus alba*
- S131 P6 Subchronic effects of barakol on blood clinical biochemistry parameters in normal and high fat diet rats
- S132 P7 Effects of *Pueraria mirifica* on blood clinical biochemistry parameters in normal diet and high cholesterol diet-fed rats
- S133 P8 Inhibition of neutrophil function by *Barleria lupulina lindl* and *Clinacanthus nutans (BURM. F.) lindau*
- S134 P9 Utilization of restricted antibiotics in a university hospital in Thailand
- S135 P10 Genetic polymorphism of thiopurine s-methyltransferase in a northeastern Thai population

- | | | |
|------|-----|--|
| S136 | P11 | The effect of valproic acid and its amide derivative on extracellular glutamate and glutamine levels in the cerebral cortex of freely moving rats: An <i>in vivo</i> microdialysis study |
| S137 | P12 | Screening for naturally occurring inhibitors of arylamine N-acetyltransferase 1 activity |
| S138 | P13 | Induction of apoptosis by the extract from <i>Stephania venosa</i> (<i>BL.</i>) <i>Spreng</i> rhizome on lymphocyte |
