

Thai Journal of Pharmacology

Vol.32, No. 1, 2010

Content

11	Preface
17	Schedule
20	<i>Chiravat Sadavongvival Memorial Lecture</i> The challenge of identifying novel antimalarial drug candidates
23	Session 1: Update on Virology and Pharmacology of Antiviral Agents
26	Session 2: Update on Chemotherapy of Anticancer Agents
27	Session 3: Stem Cell Therapy
28	Session 4: Chemotherapy and Discovery of Anti-HIV Agents
30	Session 5: Drug Design By Molecular Modeling
39	Session 6: Chemotherapy and Discovery of Chemotherapeutic Agents: Research on Natural Products
41	P01 ฤทธิ์ต้านมะเร็งลำไส้ใหญ่ของสมุนไพรไทยในเซลล์เพาะเลี้ยง
46	P02 Preliminary study on antimalarial activities of Thai herbal medicines
50	P03 Study on cytotoxic and antioxidant activities of <i>Pseuderathenum</i> <i>Platiferum</i>
54	P04 Induction of apoptosis in human B-lymphoma cells by Citral
58	P05 Phytochemistry of Thai plants and their antiprotozoal activities
62	P06 <i>In vitro</i> antimicrobial activities of meropenem, ciprofloxacin, colistin alone and in combinations against meropenem-resistant <i>Pseudomonas</i> <i>aeruginosa</i>
65	P07 Neurotonic Thai plants reduce reactive oxygen species production in SH-SY5Y neuroblastoma cells
69	P08 Potentiative effects of standardized extract of <i>Centella asiatica</i> on vinblastine-induced cell death
72	P09 Cytotoxic and antioxidant activities of the ethanolic extract from <i>Dioscorea birmanica</i> prain & burkill
76	P10 PEITC inhibits Cholangiocarcinoma via induction of mitochondrial dysfunction
82	P11 Cytotoxic and antioxidant activities of two species of ginger extracts

- 86 **P12 Effect of lipopolysaccharide pre-treatment on the replication of Japanese encephalitis virus in microglia**
- 90 **P13 Enhancing cell proliferation and protection hydrogen peroxide-induced cytotoxicity in PC12 cells by rice extract**
- 94 **P14 The screening of bacteria with antimalarial activity, a novel alternative to drugs**
- 99 **P15 Cytotoxic effects of the ethanolic extract from Benjakul formula and its compounds on human lung cancer cells**
- 102 **P16 Cytotoxic activity of Hommali 105 rice bran extract against human cancer cells**
- 106 **P17 Anti-tumor activity of *Micromelum hirsutum* extract**
- 111 **P18 A high level of nanog-luciferase activity by recombinant Oct-4 protein: toward developmental tool for iPS cell generation**
- 115 **P19 Antioxidant and cytotoxic activities of Thai medicinal plants named Hua-Khao-Yen**
- 119 **P20 Antiinflammatory and antimicrobial activities of Thai plant extracts for hemorrhoid treatment**
- 122 **P21 Effects of hemin on antimalarial activity of artemisinin and quinoline antimalarial drugs against cultured *Plasmodium falciparum***
- 126 **P22 Biological activities of *Antidesma thwaitesianum* Muell**
- 129 **P23 Study on acute toxicity, anti-oxidant and anticancer activity of ginger in *Opisthorchis viverrini*-carcinogen induced cholangiocarcinoma in hamsters**
- 132 **P24 Anti-pathogenic bacterial activities of fractionated venom of King Cobra (*Ophiophagus Hannah*)**
- 137 **P25 Effects of xanthoxylin on melanogenesis**
- 142 **P26 Screening of antiproliferation activity of Thai medicinal plants against human cholangiocarcinoma cells *in vitro***
- 145 **P27 The anti-apoptosis effect of curcumin I on bax/bcl-2 ratio against 6-OHDA induced SH-SH5Y toxicity**
- 149 **P28 Protective effects of curcumin against dopamine quinone-induced dopaminergic neurotoxicity in SH-SY5Y cells**
- 152 **P29 Inhibitory effect of methanol and hexane extracts of *Moringa oleifera* Lam leaves on NO production in LPS-activated microglia**
- 156 **P30 The hypoglycemic activity of Thai Traditional Medicine called Yahom**
- 160 **P31 Formulation and stability test of Benjakul extract tablets: a preliminary study**

- 164 **P32 Evaluation of antinociceptive activity of the ethanolic extract from *Scaphium lychnophorum* (Hance) pierre fruit in mice**
- 168 **P33 Inhibitory effect of *Harrisonia perforata* root extract on macrophage activation**
- 172 **P34 Effect of *Curcuma comosa* on the expression of cytokine genes in rabbits fed with high cholesterol diet**
- 176 **P35 Effects of curcuminoid on ethanol-induced toxicity in hepatic cells and rats**
- 180 **P36 Analgesic activity of the hexane extract fraction from the *Abroma augusta* Linn. seed in mice**
- 184 **P37 Effects of the hexane extract from *Glycosmis parva* on LPS-induced macrophage activation**
- 188 **P38 Nitric oxide inhibitory activity of Thai medicinal plants called Kod-Tung-Ha**
- 192 **P39 Antispasmodic effects of alcoholic extracts from polyherbal formulation “Prasaplai” on isolated rat uterine horn**
- 196 **P40 Inhibitory effect of *Derris reticulata* ethanol extract on LPS-induced macrophage activation**
- 200 **P41 A High-throughput spectroscopic-based bioassay method for determination of fosmidomycin in plasma: application for pharmacokinetic study**
- 204 **P42 Liquid chromatography mass-spectrometry for determination of azithromycin in plasma and application for pharmacokinetic study**
- 208 **P43 Correlation of FcγRIIIa polymorphisms and the response to rituximab in Thai population**
- 212 **P44 Possible role of heme oxygenase-1 and prostaglandins in pathogenesis of cerebral malaria: induction of heme oxygenase-1 by prostaglandin D2 and metabolite by human astrocyte CCF-STTG1 cells *in vitro***
- 216 **P45 The association between genetic polymorphisms of heme oxygenase-1, tumor necrosis factor-α (TNF-α), and malaria severity in different ethnic group of patients**
- 221 **P46 Compliance with a three-day course of artesunate-mefloquine combination in an area of Thailand with highly multidrug resistant falciparum malaria**
- 225 **P47 Genetic polymorphism of heme-oxygenase-1 in Thai population with low environmental cadmium exposure**
- 230 **P48 Gender-specific distribution of mefloquine in the blood of healthy volunteers following the administration of therapeutic doses**

- 234 **P49 Effect of itraconazole on the pharmacokinetics of ciprofloxacin in healthy volunteers**
- 238 **P50 Effects of *Phyllanthus Amarus* aqueous extract and *Phyllanthus Emblica* aqueous extract on human CYP2D6 and CYP3A4**
- 242 **P51 Carbamazepine- but not phenytoin-induced severe cutaneous adverse drug reactions are associated with *HLA-B*1502* in a Thai population**
- 246 **P52 Effect of albumin on human cytochromes P450 kinetics: extrapolation of *in vivo* clearance from *in vitro* data**
- 250 **P53 A preliminary study on possible existence of cytochrome P450 (CYP) gene in *Plasmodium falciparum***
- 253 **P54 Bioequivalence of 400 mg moxifloxacin tablet in healthy Thai volunteers**
- 256 **P55 Selective inhibition of human cytochrome P450 1A2 by *Moringa oleifera***
- 259 **P56 Method validation for simultaneous determination methamphetamine and its metabolite amphetamine in rat liver by using GC-FID**
- 263 **P57 *Fasciola gigantica*: molecular analysis of a water channel protein (aquaporin)**
- 266 **P58 Production of monoclonal antibodies against cathepsin-L and cystatin of *Faasciola gigantica***
- 269 **P59 Molecular and biochemical characterization of type I cystatin (Stefin) of *Fasciola gigantica***
- 272 **P60 Protective effects of captopril against hydrogen peroxide-induced disruption of tight junctions in ECV304 monolayers**
- 276 **P61 Characterization of estrogen receptor mediating neutrophil function**
- 281 **P62 Identification and characterization of novel antigens from *Opisthorchis viverrini***
- 284 **P63 *Pf*atp6 polymorphisms of *Plasmodium falciparum* isolates in Thailand and association with *in vitro* sensitivity to artesunate and mefloquine**
- 287 **P64 Host-parasite interactions at the hormonal level in Fasciolosis**
- 290 **P65 Quantitative real-time PCR with *TaqMan* and SYBR green for estimation of *Pfmdr1* copy number and application for monitoring of antimalarial drug resistance**
- 293 **P66 Identification of protein targets for development of diagnostics and chemotherapeutics for cholangiocarcinoma**

- 298 **P67 Investigation on the involvement of glutathione (GSH) system in the mechanism of antimalarial action and its possible role in conferring resistance of *Plasmodium falciparum* to antimalarials**
- 302 **P68 Effect of TGFβ1 and TGFβ1-inhibitor on limbal stem cell properties**
- 307 **P69 Antioxidant and antimutagenic of Thai *Ganodema lucidum***
- 310 **P70 Is the resistance transporter gene *pfert* linked with susceptibility of *Plasmodium falciparum* to chloroquine?**
- 314 **P71 Leucine aminopeptidase of *Fasciola gigantica*: functional characterization and evaluation as a vaccine in animal fasciolosis**
- 317 **P72 Genotyping of polymorphic marker (MSP3α and MSP3β) genes of *Plasmodium vivax* field isolates from malaria endemic of Thailand**
- 321 **P73 Vasorelaxant activity and inhibitory effects on leukocyte function of a flavanoid compound from *Kaempferia Parviflora***
- 327 **P74 Comparative biological activities of five Thai medicinal plants called Hua-Khao-Ye**
