

Thai Journal of Pharmacology

Vol. 27, No. 1, Jan-Apr 2005

Contents

- | | |
|----|---|
| 6 | Preface |
| 12 | Chiravat memorial lecture:
Enhancing the resolution of inflammation: a therapeutic target? |
| 13 | PL1 Molecular targets of drug responses |
| 14 | SY1 เกสัชพันธุศาสตร์ (Pharmacogenomics) |
| 22 | SY2 Biological Response Modifier (BMR) |
| 27 | SY3 Biological Response Modifier:
Cytokines and anticytokines |
| 38 | O1 Antioxidative and cytoprotective effects of
<i>Phyllanthus urinaria</i> L. on doxorubicin-induced cardiotoxicity |
| 39 | O2 Antihyperglycemic effects of cinnamic acid and derivatives :
involvement of insulin secretagogue activity |
| 40 | O3 Antihyperglycemic effects and mechanisms of action of <i>Coscinum fenestratum</i> extract in normal rats |
| 42 | O4 The glutamate sensitive non-mitochondrial carboxylase (GSNMC) in
glutamate-treated rats |
| 43 | O5 Sulforaphane-induced heme oxygenase-1 expression in PC12 cells is
independent of nuclear factor E2 – related factor 2- mediated
antioxidant response element activation |
| 44 | P1 A randomized study to compare the efficacy of two preparations
(a combined contraceptive pill versus conjugated estrogen cream)
intravaginally to treat urogenital symptoms in postmenopausal Thai
women. |
| 45 | P2 The bioequivalence study of oral Gabapentin 300 mg capsule |
| 46 | P3 The cytotoxic effect of the extract from <i>Morinda citrifolia</i> fruits |

in cell cultures

- 47 P4 Psychological stress alters the effects of ethanol in the rat social interaction test
- 48 P5 An *in vitro* testing of ethanol extract of *Piper betle* leave against *Campylobacter jejuni*
- 49 P6 Efficacy and safety of gentamicin adjusted dose base on gestational age in Thai neonatal patients
- 50 P7 The comparative loading-dose pharmacokinetic study of immediate- and modified –release phenytoin capsules
- 51 P8 Bioequivalence study of cefoperazone and sulbactam intramuscular injection
- 52 P9 Altered mRNA expression in ischemic rat brain
- 53 P10 Antioxidative effects of *Elaeocarpus grandiflorus*
- 54 P11 Effects of quercetin and naringenin on contractility of isolated rats thoracic aorta
- 55 P12 Cytotoxicity of *Stephania venosa* tuber extracts on human PBMCs
- 56 P13 Effects of *Hibiscus sabdariffa* extract on clinical blood chemistry in rats
- 57 P14 Effects of *Orthosiphon glandiflorus* water extract on clinical blood chemistry in rats
- 58 P15 Effects of *Curcuma comosa* extract on clinical blood chemistry in rats
- 59 P16 Analgesic effects of the ethanolic extract *Cissus quadrangularis* dried stem
- 60 P17 UDP-glucuronosyl-transferase 1A1 polymorphisms (UGT1A1*28) in Thai β -thalassemia/Hb E and healthy volunteers: Relationships to jaundice and gallstone formation
- 61 P18 Continuous Tracking Task (CTT): The relationship of time on task to the effects of sedative drugs
- 62 P19 Modification of paraoxonase and platelet-activating factor acetylhydrolase activities in hemin-induced lipoprotein oxidation

- 63 P20 *In vivo* phenotyping of CYP2A6 in Thais: coumarin vs nicotine
- 64 P21 Antiemetic effect of Yahom extracts in dogs
