

Tropical Natural History

To Commemorate

The 65th Birthday of

Professor Dr. Somsak Panha

Tropical Natural History

Supplement 7 (May 2023)

Dedicated to
Professor Dr. Somsak Panha on the occasion of his 65th Birthday in 2023

	CONTENTS	Pages
1	Somsak Panha and His Contribution to Southeast Asian Biodiversity Research PARIN JIRAPATRASILP, PIYOROS TONGKERD AND CHIRASAK SUTCHARIT	1–30
2	Two New Species of Semi-Aquatic Freshwater Earthworm Genus <i>Glyphidrilus</i> Horst, 1889 (Oligochaeta: Almidae) from Thailand and Laos RATMANEE CHANABUN, PARIN JIRAPATRASILP, TEERAPONG SEESAMUT, UEANGFA BANTAOWONG, ANUWAT AOONKUM AND KHAMLA INKHAVILAY	31–40
3	<i>Siamochlamys panhai</i>, a New Limestone Karst-Restricted Terrestrial Snail from Thailand (Eupulmonata: Helicarionidae) ARTHIT PHOLYOTHA, PIYOROS TONGKERD AND CHIRASAK SUTCHARIT	41–50
4	An Updated Catalogue of the Millipedes (Diplopoda) of Thailand NATDANAI LIKHITRAKARN, RUTTAPON SRISONCHAI AND SERGEI I. GOLOVATCH.....	51–92
5	Exploring the Almost Unknown <i>Trochomorpha</i> (Eupulmonata: Trochomorphidae) from Laos, with Description of Three New Species KHAMLA INKHAVILAY, CHIRASAK SUTCHARIT AND ARTHIT PHOLYOTHA	93–106
6	Morphological and DNA Sequence Data of Two New Millipede Species of the <i>Thyropygus induratus</i> Subgroup (Diplopoda: Spirostreptida: Harpagophoridae) PIYATIDA PIMVICHAI, HENRIK ENGHOF AND THIERRY BACKELJAU	107–122
7	Hidden Lineages in the Mountains: The Genus <i>Glyptaulax</i> Gude, 1914 and <i>Maelamaodiscus</i> gen. nov. (Heterobranchia: Stylommatophora: Charopidae and Ariophantidae) with Description of Two New Species from Western Thailand CHIRASAK SUTCHARIT AND ARTHIT PHOLYOTHA	123–138
8	The First Record of a Ray-finned Fish (Actinopterygii, Palaeoniscidae) from the Lower to Middle Permian of Tak Fa Formation in Phetchabun, Central Thailand SATAPAT KUMPITAK, SUTATCHA HONGSRESAWAT, PAIPHAN PAEJAROEN AND KANTAPON SURAPRASIT	139–150
9	Uncovering Endemism in High Montane Forests: Two New Species of Millipede Genus <i>Tylopus</i> Jeekel, 1968 (Diplopoda: Polydesmida: Paradoxosomatidae) from Cambodia and Laos RUTTAPON SRISONCHAI, KHAMLA INKHAVILAY, PENG BUN NGOR, CHIRASAK SUTCHARIT AND NATDANAI LIKHITRAKARN	151–164
10	Two New Species of Terrestrial Earthworms of the Genus <i>Amyntas</i> Kinberg, 1867 (Clitellata, Oligochaeta, Megascolecidae) from Northern Laos UEANGFA BANTAOWONG RATMANEE CHANABUN AND KHAMLA INKHAVILAY	165–172

11	Multi-locus Phylogeny Reveals a New Freshwater Mussel in the Genus <i>Bineurus</i> Simpson, 1900 (Unionidae: Pseudodontini) from Thailand EKGACHAI JERATTHITIKUL AND CHIRASAK SUTCHARIT	173–180
12	Two New Species of <i>Opisthostoma</i> (Caenogastropoda: Diplommatinidae) from Southern Thailand PONGRAT DUMRONGROJWATTANA, SARUTTAYA JAROONPONGSAWAT AND RATTANAWADEE TEKAVONG	181–186
13	Redescription of <i>Streptaxis mouhoti</i> Pfeiffer, 1863 and <i>Streptaxis strangulatus</i> Möllendorff, 1894 (Eupulmonata: Streptaxidae) from Peninsular Thailand and Their Assignment to a New Genus SITTICHAJ CHUNKHAJORN, PONGPISIT RUNGRUANGDEJWATTANA, CHIRASAK SUTCHARIT AND THANIT SIRIBOON	187–202
14	Checklist of the Carnivorous Snail Superfamily Streptaxoidea Gray, 1860 (Gastropoda: Eupulmonata) from Laos with Description of a New Species ANNY VANHDIBAY, CHATHALA VIENNASAI, PATISITH MITTHIYAPHONE, CHANTHANOM DEUANEMANY, THANIT SIRIBOON AND KHAMLA INKHAVILAY	203–212
15	First Record of a Cavernous Land Leech <i>Sinospelaeobdella cavatuses</i> (Hirudinda: Haemadipsidae) from Thailand TEERAPONG SEESAMUT, RATMANEE CHANABUN, NATDANAI LIKHITRAKARN, WARUT SIRIWUT, RUTTAPON SRISONCHAI, ARTHIT PHOLYOTHA, CHIRASAK SUTCHARIT AND EKGACHAI JERATTHITIKUL	213–220
16	Time Budget and Activity Patterns During the Mating Period of Flat-headed Cat <i>Prionailurus planiceps</i> in Captivity PATCHARA DANAI SAWADI, SUTIDA PIRIYAROM, WARIT KRASAEDEN, SATREERAT PRAMKASEM, SARANYA RURKKHUM AND SURASAK YIMPRASERT	221–228
17	A New Species of Land-Locked Freshwater Shrimp Genus <i>Caridina</i> (Decapoda: Atyidae) from Middle Mekong Basin, Thailand KONGKIT MACHAROENBOON, CHIRASAK SUTCHARIT, WARUT SIRIWUT AND EKGACHAI JERATTHITIKUL	229–241
18	Discovery of a New Endangered Freshwater Mussel Species in the Genus <i>Chamberlainia</i> Simpson, 1900 (Bivalvia: Unionidae) from Mekong Basin BANGON KONGIM, CHIRASAK SUTCHARIT AND EKGACHAI JERATTHITIKUL	242–250
19	Molecular Phylogeny Reveals a New Snorkel Snail, <i>Rhiostoma panhai</i> sp. nov., from Thailand (Gastropoda: Caenogastropoda: Cyclophoridae) PONGPUN PRASANKOK	251–259
20	Asian Miocene Great Apes: Searching for Orangutan Ancestors YAOWALAK CHAIMANEE AND JEAN-JACQUES JAEGER.....	260–275
21	Freshwater Molluscs in Alimentary Canal of Molluscivorous Catfish <i>Helicophagus leptorhynchus</i> Ng and Kottelat, 2000 from the Chi River at Maha Sarakham Province, Northeastern Thailand SAKBOWORN TUMPEESUWAN AND CHANIDAPORN TUMPEESUWAN.....	276–284
